A step up for Reeve!

Nina Moeller's staircase, one of the highlights of our year!

We are always lead by designers needs and every so often a designer comes along and surprises us.

Nina Moeller from Nina Moeller Furniture & Interiors has created an outstanding interior with an attention to detail which would make any designer or cabinet maker jealous, a real stairway to heaven, for us!

This 90 sqm residential refurbishment project in Kensington, London was specified with Oak Classic, 190mm, White Oiled.

Nina's brief from her client was to connect the ground floor with the basement to create a free flowing and connected space without changing the existing white painted floor upstairs. She selected a White Oiled Oak to create a light and positive ambiance in the basement floor. She was specifically drawn to our products because of the natural non glossy feel that our boards have.

Table: Nina Moeller

Chairs: Nina Moeller & Pat Booth

The Studio of Nina Moeller is based in Richmond. Nina originally trained as a furniture designer, moving into interiors after working with several clients who wanted furniture designed by her but didn't have the right settings for them to live in. She works with a hand selected team of architects, builders and project managers; focusing on residential properties but has experience in hospitality and leisure.

Her next design is for a house in SW16, in this project she has specified Classic Oak, 190mm with an Oyster finish. The project is a loft conversion in a Victorian property which extends the existing kitchen and creates a new reception and dining room.
